

Machine Learning MC886

University of Campinas (UNICAMP), Institute of Computing (IC)
Project Proposal, 2019s2, Prof. Sandra Avila

Project Proposal

The project proposal should be one page (approximately 500 words). It should contain:

1. What is the problem that you will be investigating? Why is it interesting?
2. What data will you use? Give a brief description about the dataset.
If you are collecting new datasets, how do you plan to collect them?

Deadline

Monday, **September 09**, 11:59pm.

Submission

The project proposal should be written in Portuguese or English.

Submit a PDF file, via Moodle.

This activity is **NOT** individual, it must be done in teams of **3-4 people**.
